

Drop off and Pick up Safety Concerns

Hello St. Augustine School Community;

Help please. I am very concerned about the number of people dropping their children off in unsafe places (making them cross the busy road without a crosswalk), making illegal turns in front of the school and otherwise driving recklessly without regard for their safety.

Please know that the school has assigned drop off areas in front of both school main doors. Please use these areas as your children will then not have to cross the main road illegally to get to school. Please have your children use the crosswalk (and there is not one on the east end of the school - we have asked for one and they will not put one there...). Please be extra cautious in our school zone as, unfortunately, we have people who are currently not following our procedures and do put children at risk as a result.

I am grateful that our school has a lot of room for parents to drop off and pick up their children. If everyone adheres to the procedures and follows the law our children will be safe.

Please be advised that I will be requesting the police come to enforce proper traffic protocols to protect our students.

The safety of all children is our highest priority. We ask that everyone drop off and pick up their children in a safe and orderly fashion.

Thank you,
Mr. Prediger
