

# Off-Campus Education Programs for High School Students

Dear Parents/Guardians,

Is your child interested in gaining hands-on work experience while still in high school? We have some fantastic opportunities for students to explore future career pathways through the **Registered Apprenticeship Program (RAP)**, **Work Experience Program**, and **Green Certificate Programs!**

**RAP (Registered Apprenticeship Program):** RAP allows students to start apprenticeship training in one of Alberta's 50+ Trades while still in high school. Students will work alongside experienced tradespeople, earn a wage, and gain valuable skills in a chosen trade. Plus, students will simultaneously earn credits towards their high school diploma and towards their Alberta Journeyman Certification.

**Work Experience Program:** Do you have a job or are currently volunteering? You can be earning credits towards your high school diploma! Through the Work Experience Program, students gain practical skills and explore potential career paths by participating in work/volunteer placements. Whether you are interested in Information and Communications Technology (ICT), Forestry, Agriculture, Energy, Healthcare, Aviation, or any other field, the Work Experience Program offers valuable hands-on learning opportunities.

**Green Certificate Program:** The Green Certificate Program provides students with opportunities to enter a variety of agriculture-related pathways as a part of their high school programming. Students learn on the worksite, under the direction of experienced farm personnel. Options include Equine, Beekeeping, Poultry, Cow-Calf, Feedlot, Sheep, Swine, Dairy and more!

These programs offer a unique and exciting opportunity to learn outside of the classroom, build your resume, gain valuable experience and jumpstart your career while still in high school.

**If you are interested in any of these programs, please contact the Office and ask for the Off-Campus Coordinator at your school.**
